

Career Opportunity Summary

Sewing Technician | Medical Device Manufacturing

We are hiring a Sewing Technician to support the production of high-quality medical devices in a regulated manufacturing environment. This role is responsible for sewing and assembling textile-based components using industrial sewing equipment while following detailed work instructions and quality standards.

Key Responsibilities

- Operate industrial sewing machines and related equipment
- Assemble and inspect medical device components
- Follow technical drawings, SOPs, and quality procedures
- Maintain accurate production documentation
- Support a clean and safe manufacturing environment

Qualifications

- Experience with industrial sewing machines preferred
- Strong attention to detail and manual dexterity
- Ability to follow precise instructions and quality standards
- Manufacturing experience in medical devices or regulated industries is a plus

We offer competitive pay, benefits, and opportunities for growth in a collaborative manufacturing environment.
